October 24, 2006

Dear Mr. Barker,

Now that we have entered the second half of the first semester, I look back over the first nine weeks and reflect on the many highlights that we have experienced here at Bunche Middle School.

Without a doubt, I must say that the motivational assembly program that you and Professor Alfred "Coach" Powell presented to our sixth graders on September 12, 2006 is one of the most outstanding presentations that I have seen. I truly appreciate your offering our students this unique opportunity to be so engaged for one hour. The presentation was informative, entertaining, quite timely and very worthwhile.

I sincerely hope that we can be included on your schedule in the future. I commend the Human Motivation Council (HMC) for its focus on the students at Bunche Middle School.

Again, on behalf of the Bunche family, thank you.

Sincerely,

Victoria Ball

Counselor
