Dear Mr. Barker:

I am so glad to hear that some of our North Little Rock students will be able to hear your motivational message. These children desperately need some words of encouragement and positive male role models. The message you shared with parents and staff at our Parent Summit about Parentpoints last March was well received. The only complaint made in the evaluations was that they wished you had longer to talk!

One participant shared the following thoughts, which I think echo the feelings of many there: "I think this Parent Summit was excellent. I'm a teacher without children of my own and I teach children that come from broken homes. The Parent Points really gave me ideas on what I could do to instill responsibility in my students. Even without motivation at home, as least I could be there for them."

Congratulations on the success of your program and thank you again for sharing your story with us in your home town of North Little Rock, Arkansas.

Sincerely,

Debbie Rozzell
