Dear Mr. Barker:

It is my pleasure to endorse the Mr. Daron D. Barker, CEO and President of the Human Motivation Council. The students at Harper-Archer Middle School were intrigued with the motivational messages of the Human Motivation Council. The All New America's Dad Mr. Daron D. Barker, Professor Alfred "Coach" Powell and Mr. James "Hollywood" Hill entertained, motivated and taught the students at Harper-Archer Middle School how to strive for success despite their adversities. Our students were involved with the jingles, skits and dances of the Human Motivation Council.

The presentation was catered to the sixth student population. These students are making a transition into middle school challenges and changes. The presentation gave the former elementary fifth graders tools to handle class schedules, homework, peer pressure and even the stresses of life. The Human Motivation Council elevated the students to think of their life pathways as they matriculate to post-secondary education and personal professional success. The students selected to receive the \$1000 book scholarship were encouraged.

The Human Motivation Council enthusiasm, innovativeness and genuine concern for the education of students are exemplary. Success has permeated our sixth grade environment since your visit with us. We appreciate your **free**, no cost to us presentation. Thank you for your invaluable commitment to education.

Sincerely yours,

Bonnie V. Starr, Ph.D.

6th Grade Guidance Counselor
Harper-Archer Middle School
